

## Set-up instructions for SH3270-12.5:

1. Using the 4x green colored four-way connectors, join the 2x short straight pipes with the 2x long straight pipes to form the rectangular base.
2. Place the wire mesh on the base.
3. On the lengthier side, snap the 2x C-shaped pipes into the vertical hole of the 4-way connectors.
4. Drape the tent over the frame, zipper side facing front.
5. Secure it onto the frame using the green ties both inside and outside.
